

Yurii

Delphi Desktop Developer

Delphi developer with experience in desktop enterprise systems, Firebird, FastReport, VCL components, database synchronization, and legacy modernization.

Core stack

Delphi / Object Pascal, Firebird, FastReport, DevExpress, Legacy modernization

Projects

Warehouse Client Modernization (2024-now)

Role: Developer / Modernizer

Migrated a legacy Delphi 6 solution to Delphi 12/13 with architecture and core redesign.

Store Journals (2022-2023)

Role: Developer

Internal audit/reporting platform for retail workflows.

UAM / User Access Manager (2020-2022)

Role: Developer

Access management and authentication system for 2000+ users.

Experience

ATB / ATB-MARKET / ATB ENERGO | Lead Application Programmer / ASP.NET MVC Developer

2016-06 - 2024-03

- Maintained the client side of a warehouse accounting system in Delphi 6.
- From 2018, also developed internal ASP.NET MVC solutions.
- Projects included UAM, Store Journals, Recyclables, and Store Password Change.
- Modernized a legacy solution by moving from Delphi 6 to Delphi 12/13.
- Worked with access control, authentication, audit workflows, integrations, and real-time notifications.

ATB / internal project | Architect / Developer, SMS Messenger

2020-01 - 2021-01

- Designed the architecture of an SMS notification platform.
- Integrated with GSM API and SMPP.
- Built as a .NET MVC / Web API solution with MS SQL.

Kryvyi Rih Iron Ore Combine | Engineer Programmer

2013-06 - 2016-06

- Developed and maintained software for ore extraction and shipment.
- Automated distribution of consumables.
- Supported production preparation and budgeting systems.
- Implemented Firebird table synchronization.

Education

- Computer Engineering / Computer Systems and Networks — Zaporizhzhia Institute of Economics and Information Technologies (2008-2011)
- Mining Engineer, Underground Development — Kryvyi Rih Technical University (1998-2003)
- Programming in Delphi — Institute of Modern Professions (2006)
- Angular 9 — Luxoft (2021)
