

# Yurii

## **.NET / ASP.NET / Full Stack Developer**

.NET / ASP.NET / full stack developer with experience in internal web systems, authentication, access control, audit workflows, real-time notifications, integrations, and enterprise backend development.

### **Core stack**

C#, ASP.NET MVC, ASP.NET Core, Web API, SignalR, OAuth2, ADFS, MS SQL, JavaScript, HTML/CSS, Firebird, FastReport

### **Projects**

#### **Recyclables (2023-2025)**

Role: Developer

ASP.NET MVC / Core web project integrated with M.E.Doc and retail infrastructure.

#### **Store Journals (2022-2023)**

Role: Developer

Internal audit/reporting platform for retail workflows.

#### **UAM / User Access Manager (2020-2022)**

Role: Developer

Access management and authentication system for 2000+ users.

#### **SMS Messenger (2020-2021)**

Role: Architect / Developer

SMS notification platform using GSM API and SMPP.

### **Experience**

#### **ATB / ATB-MARKET / ATB ENERGO | Lead Application Programmer / ASP.NET MVC Developer**

2016-06 - 2024-03

- Maintained the client side of a warehouse accounting system in Delphi 6.
- From 2018, also developed internal ASP.NET MVC solutions.
- Projects included UAM, Store Journals, Recyclables, and Store Password Change.
- Modernized a legacy solution by moving from Delphi 6 to Delphi 12/13.
- Worked with access control, authentication, audit workflows, integrations, and real-time notifications.

#### **ATB / internal project | Architect / Developer, SMS Messenger**

2020-01 - 2021-01

- Designed the architecture of an SMS notification platform.
- Integrated with GSM API and SMPP.
- Built as a .NET MVC / Web API solution with MS SQL.

#### **Freelance / private practice | Full Stack Developer / Freelancer**

2015-07 - 2016-07

- Built an automated auto showroom system in Java + Firebird.
- Configured WordPress / WooCommerce / OpenCart solutions.
- Created a custom WordPress plugin.

#### **Kryvyi Rih Iron Ore Combine | Engineer Programmer**

2013-06 - 2016-06

- Developed and maintained software for ore extraction and shipment.
- Automated distribution of consumables.
- Supported production preparation and budgeting systems.
- Implemented Firebird table synchronization.

### **Education**

- Computer Engineering / Computer Systems and Networks — Zaporizhzhia Institute of Economics and Information Technologies (2008-2011)

- Mining Engineer, Underground Development — Kryvyi Rih Technical University (1998-2003)
- Programming in Delphi — Institute of Modern Professions (2006)
- Angular 9 — Luxoft (2021)
